According to the quota established by Panam Sports, the maximum number of male and female diving competitors will be 74 athletes to be qualified and 6 athletes that qualified in the Cali 2021 Junior Pan American Games.

Each NOC may enter a maximum of ten divers comprised of five men and five women if entering teams in synchronized diving. NOCs not entering divers in synchronized diving will be allowed to enter a maximum of six divers, 3 men and 3 women.

The divers who qualified at the Cali 2021 Junior Pan American Games will not be included in the team (NOC) quota of 10 if they participate only in the event in which they qualified in Cali, however, if they dive in any other event, they shall be included in the maximum team quota of 10 divers.

All NOCs may enter a maximum of two divers per individual event and one team per synchronized event, except for NOCs that have qualified a diver through the Junior Pan American Games. NOCs that qualified a diver at the Junior Pan American Games may have a maximum of three divers per individual preliminary event provided that only the top two divers in the preliminary event from such NOC may qualify for the final.

Athlete eligibility

The athletes must have signed and submitted the Athlete Eligibility Condition Form.

Only NOCs recognized by Panam Sports whose National Federations are affiliated with FINA and the Panam Aquatics, may enter competitors in the Santiago 2023 Pan American Games.

If the named athletes cannot participate in the Santiago 2023 Pan American Games, the place will be lost. The lost place may not be transferred to the athlete's NOC or to any other athlete.

Athletes who qualified in the Cali 2021 Games are additional to the NOC quota in the event qualified. The NOC is entitled to qualify other places according to the following qualification system in addition to the Cali 2021 qualified athletes.

Please note that, Cali 2021 qualified athletes are not eligible to qualify a country place for their NOC in the event they qualified in Cali 2021, as noted in the table above, since they are already qualified for the Santiago 2023 Games.

Qualification system

NOCs may only send competitors to the Santiago 2023 Pan American Games who have qualified through the system established by Panam Aquatics and FINA.

The objective is to have the top ranked Panam Aquatics divers within FINA compete at the Santiago 2023 Pan American Games.

Those divers who have achieved a ranking within FINA may earn a quota position for their NOC. In addition, at each of the CONSANAT Championships (Zone 1) and the PAQ Qualifying Diving Championships (Zone 2), divers from federations competing in such events may earn a quota position for their NOCs provided that the total number of divers from such Zones do not exceed 24 divers on all boards (including those who are ranked in FINA from such competing federations but excluding any divers from CHI). Additional divers from other Zones may qualify quota positions at such events but may be subject to Reallocation of Unused Quota Places outlined below.

List of proposed divers / Long List

Each NOC must submit a long list with the names of the proposed divers to be registered for the Santiago 2023 Pan Am Games to Panam Aquatics and Panam Sports no later than July 20th, 2023. The Panam Aquatics TDC will review the divers to ensure that they are the top ranked Panam Aquatics divers within FINA or have qualified in accordance with the following events:

Athlete Quota Numbers by Zone (74 Athletes Total)

Zone 1 – minimum of 20 divers, each federation within Zone 1 limited to a maximum of 10 divers; in addition CHI will have a maximum of 10 divers as host nation.

Zone 2 – minimum of 20 divers, each federation within Zone 2 limited to a maximum of 10 divers.

Zone 3 – maximum 10 divers

Zone 4 – maximum 10 divers

It is important to note that the quota positions for each of Zones 1 and 2 earned through FINA rankings will have priority and any diver from that zone ranked within FINA will count towards the minimum quota numbers for such Zone at its Zone qualification event.

NOCs shall confirm to Panam Sports and Panam Aquatics the places they will use no later than August 14th, 2023.

All NOCs must submit their entry by number and long list by the established deadline, July 20th, 2023. In the long list, NOCs can enter all possible athletes who may qualify and participate in the Santiago 2023 Pan American Games.

Reallocation of unused quota places

If necessary, Panam Aquatics will determine the qualified divers for the Santiago 2023 Pan American Games according to the priority ranking system outlined above no later than August 15th, 2023.

If the number of proposed divers exceeds the quota of 74, Panam Aquatics will determine the qualified divers for the Santiago 2023 Pan American Games according to the following priority ranking system:

- a) **Priority one** – FINA World Ranking at the end of 2022. FINA World Ranking 2023 may be used to add divers not ranked in 2022.
- b) **Priority two** – Place finish in the qualification event.
- c) **Tiebreaker system** – if a tie occurs, provided the PAQ Qualifying Diving Championships invites all Zones to participate, the highest finish for an athlete that has not qualified. If the 2023 PAQ Diving Championships is not held or does not invite all Zones, the following system will be used to break the tie: most number of top 12 place finishes in FINA events from 2021 to 2023.

If there is still a tie, then the highest ranked average of finish, followed by the next ranking consideration is used: most number of top 12 place finishes in Panam Aquatics events from 2021 to 2023.

If there is still a tie, then the final ranking consideration is used: federations without competitors will be invited first and any further considerations will be determined by any head-to-head results, as interpreted by the Panam Aquatics TDC in its sole discretion, specifically including the 2023 CCAN Championships provided all Panam Aquatics federations in good standing are permitted to attend.

NOCs that received reallocated places must confirm their participation by August 17th, 2023.

Qualification for Paris 2024 Olympic Games

The Diving competition at the Santiago 2023 Pan American Games will serve as a qualifier for the Paris 2024 Olympic Games.

The continental champions in the individual events of 3m springboard and 10m platform in both genders will qualify a position for their respective National Federation if they have not otherwise qualified a position in that event, with official with entries to be confirmed by the respective NOCs.

Qualification system

Qualification period: March 1st, 2022– August 1st, 2023.

As Host Country, Chile automatically will qualify 18 male and 18 female athletes.

NOCs may only send athletes to Santiago 2023 who have qualified through the system established by Panam Aquatics and FINA.

Each National Olympic Committee (NOC) may use proven swim times attained during the qualification period of those swimmers who have met the qualifying standards established by PanAm Aquatics for Santiago 2023.

PanAm Aquatics has established the following criteria for events eligible to be used as qualifying events for these games: FINA World Championships; Continental Championships; Continental Qualification Events; National Championships and Trials and other Qualification Events approved by PanAm Aquatics. For additional events please submit the request to santiago2023@panamaquatics.com

The priority order for qualification and selection into Santiago 2023 will be:

1. All athletes with Pan American Games Qualifying (PQT) "A" time
2. Relay only athletes
3. Universality places
4. Invited athletes who have achieved a Pan American Games Selection (PST) "B" time

Pan Am Qualifying Time (PQT / "A" Time) and Pan Am Selection Time (PST / "B" Time)

For each individual event at the Pan American Games, PanAm Aquatics will establish standard entry times of two (2) types: a "PanAm Qualifying Time" (PQT / "A" Time) and a "PanAm Selection Time" (PST / "B" Time) of which the PST / "B" Time shall be easier to achieve. Standard entry times can only be achieved in competitions approved for that purpose by PanAm Aquatics during the qualification period from March 1st, 2022, to August 1st, 2023.

Athletes who have achieved the Pan Am Qualifying Time (PQT / "A" Time)

Athletes who achieve the PQT / "A" Time in one or more individual events are automatically qualified to participate in Santiago 2023.

NOCs can enter two (2) athletes in the same event, only if both athletes have achieved the PQT / "A" Time. There is the possibility of a third athlete entry should that athlete be an automatic qualifier indicated on the list above.

Invited athletes who have achieved a Pan Am Selection Time (PST / "B" Time)

Following the end of the qualification period and if the quota of 350 athletes is not reached, PanAm Aquatics will assess the number of athletes having achieved the PQT / "A" Time, the number of Relay-Only athletes and the number of Universality Places.

PanAm Aquatics will then invite athletes who have achieved an PST / "B" time, until the total quota of 350 athletes is reached. PST places will be distributed by event, according to the position on the FINA World Ranking of 1 August 2023.

NOCs can only enter one (1) athlete per event having achieved a PST / "B" Time. Athletes invited through PST/"B" time are allowed to compete in a maximum of five individual events inclusive of the event in which their selection was based provided that NOC has an opening in that specific event. The rule of a maximum of two entries per event per NOC still applies, and these athletes cannot enter an event that already has one athlete from that NOC in that event (unless both athletes have "A" qualifying times in that event).

Universality

NOCs with no athletes who have achieved an PQT / "A" Time, or a PST / "B" time may enter a maximum of one (1) man and one (1) woman.

NOCs with athletes having achieved an PQT / "A" time or selected by PanAm Aquatics for an PST / "B" time only in one (1) gender may also enter one (1) universality athlete in the other gender.

Under the universality rule, each NOC is guaranteed an entry of one male and/or one female athlete, each of whom may enter a maximum of three individual events, without having a qualifying time for any event.

A NOC that enters universality athletes at Santiago 2023 is not eligible to enter mixed-gender relays and therefore cannot enter relay-only athletes.

Universality places must be on the long list and registered by the NFs in the OME System.

Universality places should be requested no later than August 7th, 2023 to PanAm Aquatics and Panam Sports to the following emails: santiago2023@panamaquatics.com and andrea@panamsports.org

Universality places and universality athlete names are not final until PanAm Aquatics completes the PST / "B" allocation and reallocation process. During that process, PanAm Aquatics will reallocate, as required, quota spots to the NOCs with guaranteed universality quota spots remaining and request the NOC confirm the name of the athlete(s) occupying those spot(s) (no more than one male and/or female athlete per NOC, according to the universality rule).

PanAm Aquatics will send the final list of universality places on September 20th, 2023, and NOCs must confirm the same day.

Relays

Each NOC may enter one team in each relay event, provided it has at least two athletes with PQT / "A" Time, or a PST / "B" standards that have been invited to compete at Santiago 2023. Each NOC will be allowed a maximum of two relay-only swimmers per gender. All other relay participants must be entered in at least one individual event. Any swimmer entered in an individual event may swim in any relay and does not need a qualifying time in the particular stroke/distance to be swim in the relay to do so. Relay-only athletes are only eligible to swim in the relay(s) and will not be permitted to swim in any individual events. A relay-only athlete must participate in at least one relay.

Each team is allowed to have two-relay only swimmers of each gender within their team quota allotment, but each of these swimmers must swim in the heat or final of at least one relay and must have a PQT / "A" Time, or a PST / "B" qualifying time in the stroke/distance that he/she would swim in a relay. Should a relay-only swimmer not compete, this will lead to the disqualification of the respective team. Further, if a relay-only swimmer does not compete in the heats of a relay in which the NOC fails to qualify for the finals, the relay will be disqualified. If a relay-only swimmer could swim in multiple relays but does not compete in any for which he/she is eligible, the final relay for which he/she was eligible will be the relay that is disqualified.

If a relay-only swimmer is medically unable to compete, they may be excused from the requirement to participate in a relay. A member of the Panam Sports Medical Commission or their Designee will be present at heats and finals and will be the independent physician empowered to make decisions about relay-only athlete participation.

The physician designated by the Panam Sports Medical Commission and Panam Aquatics has final authority to make decisions about an athlete's non-participation due to injury or illness (particularly related to relay-only athlete participation in relays, but not limited to this), and to make decisions about permissible use of taping on the bodies of competing athletes.

The relay participants may be completely different between Heats and Finals, with up to eight different swimmers.

A NOC that enters universality athletes at the Santiago 2023 is not eligible to enter mixed-gender relays and therefore cannot enter relay-only athletes.

The athletes must have signed and submitted the Athlete Eligibility Condition Form. All participating athletes must be at least 14 years old.

Cali 2021 quotas

The following NOCs had gold medalists in the individual events and qualified directly at the Cali 2021 Junior Pan American Games for the Santiago 2023 Pan American Games:

QUALIFIED ATHLETES FOR SANTIAGO 2023		
Event	Athlete	Quota
Recurve	Trenton Cowles - USA	1 – H
	Valentina Vazquez - MEX	1 – M
Compound	Sebastian Garcia – MEX	1 – H
	Dafne Quintero - MEX	1 – M
TOTAL	2 men 2 women	4 athletes

If the NOC that qualified at the Cali 2021 Junior Pan American Games does not participate in the Santiago 2023 Pan American Games, this place will be forfeited and cannot be transferred to another NOC or athlete.

Archers who earned places at the Junior Pan American Games may compete to earn team places for their countries in the other qualifiers, but not for an additional individual place for their countries.

The gold medal winners in the **compound** categories in Cali will participate in the individual competition in Santiago 2023. They can also join other archers from their countries to compete in the women's, men's and mixed team events.

The gold medal winners in the **recurve** categories in Cali will compete in Santiago under the following conditions:

- If they represent countries that did not earn team places for Santiago 2023, they can participate in the individual competition, even if their inclusion leads the country to have two archers in the category in question. The elimination round would begin with a 1/32 match.
- If they represent countries that have qualified a full team in that category, they will start the qualifying round and may be chosen for the team rounds of their gender or mixed teams. They will be able to continue in the Individual Olympic Round only if their countries choose them as one of the three archers who will compete individually for medals or places for the Olympic Games. In this case, the individual round would start at the 1/16 stage since only 32 athletes would advance.

Qualification system

The present Qualification System has been designed to ensure 8 recurve teams and 5 compound teams of each gender, as well as the participation of individual archers from as many countries as possible. For this reason, a country can qualify either a 3-archers team or just one archer. As provided for the Olympic Games, a country cannot participate with two archers in one category for Santiago, except if one of the archers qualified at the Pan American Junior Games in Cali.

As there are countries (Colombia, Venezuela, Panama and Guyana) whose geographical location allows them to compete at the South American Games and the Central American and Caribbean Games, their National Federations must inform World Archery Americas by July 31, 2022, in which of these two Games they want to be considered for Pan American Games qualifying positions. This information must be provided in writing and must be accompanied by a letter of approval of their respective National Olympic Committee.

As Canada and the United States do not compete in any of the Regional Games, they will be the only countries eligible to earn spots in the North American Qualifier.

The participants by category in the Pan American Games will be:

- Recurve Women: 33 (8 teams + 8 individual archers from 8 different countries + the gold medal winner of the Cali 2021 Pan American Junior Games)
- Recurve Men: 33 (8 teams + 8 individual archers from 8 different countries + the gold medal winner of the Cali 2021 Pan American Junior Games)
- Recurve Mixed Teams: As many teams as countries that qualified at least one man and one woman.
- Compound Women: 16 (5 two-member teams + 5 individual archers from 5 different countries + the gold medal winner of the Pan American Junior Games).
- Compound Men: 16 (5 two-member teams + 5 individual archers from 5 different countries + the gold medal winner of the Pan American Junior Games).
- Compound Mixed Team: As many teams as countries that qualified at least one man and one woman.

Places for Chile as host country:

- 3 for the men's recurve event
- 3 for the women's recurve event
- 1 for the men's compound event
- 1 for the women's compound event

Chile will be able to earn team quotas in the men's and women's compound team events only if the country is ranked among the top five finishers in the Pan American Championships.

Qualification system

Each PBC member country must choose two competitions in which they will take part to qualify. ONLY those two competitions will be considered for qualification.

12 countries will be competing in said Games with 2 athletes per gender and per qualified country for a total of 24 athletes in doubles per gender. These same athletes will compete in the individual event, in which the medalists of the individual event of the Cali 2021 Junior Pan American Games will receive a quota, for a total of 25 athletes per gender in the individual event.

In view of the fact that Canada and the USA do not participate in the Central American and Caribbean Games (CAC) and the South American Games (ODESUR), official competitions of the Olympic cycle, they will only have the opportunity to qualify in the Panam Bowling official competitions. Thus, we will limit all countries to just 2 competitions in which they may seek qualification in order to be fair and give equal opportunities to every country.

The qualifying competitions will be:

Qualification Rules

1. The NOCs that finish in places 1 to 6 in the Kayak final event and in places 1 to 7 in the Canoe final event of the Olympic program events of the Qualification Regatta, will qualify for the 2023 Pan American Games.
2. An athlete can only qualify one boat for his/her NOC.
3. In Kayak, boats and athletes' quotas will be allocated first to K4, then to K2 and then to K1.
4. If an athlete is member of a boat that qualifies for K4 and competes as well in K2 and/or K1 in the Qualification Regatta, the K2 and/or K1 results will not be considered for the purpose of the allocation of quotas to boats and athletes.

5. If an athlete is member of a boat that qualifies for K2 and competes as well in K1 in the Qualification Regatta, this K1 result will not be considered for the purpose of allocation of quotas to boats and athletes.
6. In Canoe, athlete quotas will be assigned first to C2 and then to C1.
7. If an athlete is member of a boat that qualifies in C2 and competes as well in C1 in the Qualification Regatta, this C1 result will not be considered for the purpose of allocation of quotas to boats and athletes.

Qualification Consequences

1. In an NOC qualifies in MK4 500m, this NOC must compete in MK1 1,000m and MK2 500m.
2. If an NOC qualifies in WK4 500m, this NOC must compete in WK1 500m and WK2 500m.
3. If an NOC qualifies in MC2 500m, this NOCS must compete in MC1 1,000m.
4. If an NOC qualifies in WC2 500m, this NOC must compete in WC1 200m.

Host country representation (Chile)

If the host NOC (Chile) does not qualify in the K1 or C1 events in both genders, it will be allocated a quota in said event. If this happens, the number of K1 or C1 qualified athletes in that category in the Qualification Regatta will be reduced by one.

Confirmation of quota places

COPAC will confirm to Panam Sports and to the NOCs the places that each NOC has qualified no later than August 29th, 2022.

NOCs will confirm to Panam Sports and COPAC the places they will use no later than September 2nd, 2022.

Reallocation of unused quota places

If an NOC does not accept all its quotas or does not use all its quotas to complete its entries by number for the 2023 Pan American Games, the reallocation of these quotas will be done at the discretion of the COPAC President on the recommendation of the COPAC Canoe Sprint Committee.

There will be no reallocation of quotas between categories. The reassignment will be made according to the following guidelines:

1. If an NOC returns one quota in a category, said quota must be reallocated to the next highest ranked NOC that has not yet qualified in that category in the individual Olympic event of the Qualification Regatta;
2. If an NOC returns two quotas in a category, the quotas must be reallocated to the next highest ranked NOC that has not yet qualified in that category in the Olympic doubles event of the Qualification Regatta;
3. If an NOC returns three quotas in a category, the quotas must be reallocated to the next highest ranked NOC that has not yet qualified in that category in the individual Olympic event of the Qualification Regatta, and to the next highest ranked NOC that has not yet qualified for the doubles event of said category in the Qualification Regatta;
4. If an NOC returns four quotas in a Kayak category, the quotas must be reallocated to the next highest ranked NOC that has not yet qualified in that category for the K4 Olympic event of the Qualification Regatta.

Track athletes can compete in Road events and vice versa, as long as the maximum quotas per NOC and per event are respected.

MTB athletes may compete in the Road events, as long as the maximum quotas per NOC and per event are respected.

The NOCs must inform the list of athletes who will compete in a discipline that is different from the one that they qualified for. This list must be sent before July 20, 2023, to the following emails: presidencia@copaci.org and andrea@panamsports.org

Reallocation of unused quota places

Individual Competition

1. If a country with 2 individual gymnasts (places 1 – 12) declines participation of 1 or 2 gymnasts, the 2 quotas will be granted to the following country according to the team results of the Qualification Competition. The country that declined may keep 1 individual quota (places 13 – 16) if the gymnast was placed among the top 4 in the general individual all-around qualification, discarding the countries that obtained 2 quotas based on their teams' results.
2. In case that the Host NOC qualifies for the individual events based on any of the 2 first criteria, the Host NOC's individual quota will be reallocated to the next NOC according to the general individual all-around qualification, and that has not qualified under any other criteria.
3. If a country with an individual quota (places 13 – 17) withdraws its gymnast, the individual qualification order will be followed to assign the quota to a new country under this parameter.

Groups Competition

1. If a country with a Group (places 1 – 7) declines its participation, the quota will be granted to the following country according to the all-around positions of the Group Qualification Competition.
2. In case that the Host NOC qualifies its group according to the first criteria, the Host NOC's team quota will be reallocated to the next NOC in the all-around qualification that has not qualified yet under another criteria.

All countries that qualify a Group are entitled to participate with 5 gymnasts. A sixth reserve gymnast is not allowed.

NOTE: In any other unexpected case, the corresponding TC will make the decision with the approval of the PAGU leadership.

If necessary, the Pan American Gymnastics Union will confirm the reallocation of unused quota places no later than June 26th, 2023.

Cali 2021 quotas

The following NOCs had gold medalists in the individual events and qualified directly at the Cali 2021 Junior Pan American Games for the Santiago 2023 Pan American Games:

QUALIFIED ATHLETES FOR SANTIAGO 2023		
Event	Athlete	Quota
Air Pistol	Ricardo Valencia – MEX	1 – M
	Suman Sanghera - USA	1 – W
Air Rifle	Rylan Kissel - USA	1 – M
	Mary Tucker - USA	1 – W
TOTAL	2 men 2 women	4 athletes

If an athlete that qualified at the Cali 2021 Junior Pan American Games does not participate in the Santiago 2023 Pan American Games, this place will be forfeited and cannot be transferred to another NOC or athlete.

The athletes who qualified at the Cali 2021 Junior Pan American Games may not obtain another quota for their NOC; however, another athlete may compete to obtain another quota through the Santiago 2023 qualification system, within the maximum quota per NOC.

The quotas obtained in the Junior Pan American Games are additional; therefore, the USA could participate with up to 3 athletes in the Women's Pistol event and in the Air Rifle event for both genders and MEX could participate with up to 3 athletes in the Men's Air Pistol event.

Qualification system

- Panam Sports approved 240 quotas for Santiago 2023 and 4 additional quotas for the winners of the individual events of the Cali 2021 Junior Pan American Games, for a total of 244 quotas.
- These quotas will be allocated in the Asuncion 2022 South American Games, the Lima 2022 Americas Shooting Championship and the San Salvador 2023 Central American and Caribbean Games.
- An athlete can only earn one quota. If he or she finishes in a place with a quota at another event, said quota will be transferred to the next shooter that has not earned a quota.
- The athlete who obtains a quota may enter other events, as long as the maximum quota per NOC is not surpassed.
- No quotas for the mixed doubles events of Rifle, Pistol and Skeet will be granted; athletes who have qualified for individual events must be used to enter the Mixed Doubles event.
- The earned quotas must be used for the event in which they were obtained or be changed for another event of the same discipline and same gender. However, the quotas cannot be changed amongst events like Rifle or Pistol (for example, a federation may reallocate a quota earned for men's Skeet for a quota on men's Trap). This protects the integrity of the discipline and recognizes that there are countries that have 2 federations: Pistol/Rifle and Shotgun.
- The host country of the Pan American Games is eligible to earn additional quotas to the six (6) allocated to it as host (two quotas per event), to a maximum of 2 competitors per event.

All the NOCs that earned quotas at the Cali 2021 Junior Pan American Games must participate (with the same athlete or with another athlete of the same weight category) in the 2022 and 2023 qualification events. The NOCs that have qualified athletes at Cali 2021 and the 2022 Pan American Senior Championship in Acapulco must participate in the 2023 Pan American Senior Championship in Buenos Aires. Otherwise, the NOC that does not participate with an athlete WILL LOSE THE QUOTA and said quota will be allocated in the corresponding championship to the next highest-ranked NOC that has not qualified yet.

If an NOC that qualified at the Cali 2021 Junior Pan American Games does not want to participate in the Santiago 2023 Pan American Games in the category it qualified for, said quota will be lost and cannot be transferred to another NOC or athlete.

The NOCs that qualified at the Cali 2021 Junior Pan American Games must confirm their participation by April 30, 2022.

Qualification system

DATE	EVENT	QUALIFIED
December 1 – 4, 2021	I Junior Pan American Games Cali 2021	12 men 6 women
May 5 – 8, 2022	2022 Pan American Senior Championship Acapulco, Mexico	48 men 24 women
May 4 – 7, 2023	2023 Pan American Senior Championship Buenos Aires, Argentina	48 men 24 women

According to the regulations of Panam Sports, the host country (Chile) is automatically qualified for all categories included in the Santiago 2023 Pan American Games.

However, Chile must participate (in both Pan American Senior Championships) with a representative in a weight division if it wants to have a quota for said category. For example, if Chile wants to qualify for FS 57 kg, an athlete from Chile must participate in both Pan American Championships (Acapulco, Mexico 2022 and Buenos Aires, Argentina 2023) to confirm the quota for the Santiago 2023 Pan American Games. It should be noted that the participating athlete may be different in both championships.

If at the end of the three qualifying events Chile does not qualify any athlete for a weight category, only the 3 top athletes of the 2023 Pan American Senior Championship will qualify. This means that the 4th place will be awarded to the host country.

Any athlete who has qualified for a style or weight division cannot qualify for another style or weight division.

As of the second qualifying event, quotas will be granted in an ascending order to the countries that have not qualified yet. If necessary, an extra combat will be held to determine the final qualification spot.

The quota is for the country, not for the athlete.

The countries that have already qualified in the I Junior Pan American Games Cali 2021 or in the 2022 Pan American Senior Championship (Acapulco, Mexico), must compete with an athlete of the same category (style and weight) to maintain the place obtained in any of the mentioned events. The athlete may or not be the same from championship to championship.

Wild Cards

United World Wrestling (UWW) and United World Wrestling Americas (UWWA) will award six wild cards to the NOCs based on the IOC universality principle, considering the following criteria:

- NOCs that participate in qualification events but have not qualified an athlete.
- Among these NOCs, the athletes with the best results at qualification events.

Confirmation of quotas

The NOCs that have qualified at the I Junior Pan American Games Cali 2021 must confirm their participation to Panam Sports and the UWWA by April 30, 2022.

The UWWA will confirm to Panam Sports and to the NOCs the places they have qualified no later than May 15, 2023.

The NOCs must confirm the places they will use to Panam Sports and the UWWA no later than May 22, 2023.

Reallocation of unused quota places

If necessary, the UWWA will reallocate unused quotas in the corresponding style/weight division to the next highest-ranked NOC at the qualification event in which the NOC that rejected the quota earned it. This process must be completed by May 24, 2023.

The NOCs that are allocated unused quotas must confirm their participation no later than May 26, 2023.
